

Marriage or Smearriage

Date: 7th December, 2013. Australia is reconsidering the Gay Marriage question. It was put to a vote about this time last year, but the Gays can't take no for an answer, so Australia is going to cave in on this because of pester power.

The first ever same-sex marriage has just taken place in the Australian Capital Territory. The other states will pass similar legislation. It's just a matter of timing.

It's part of a world-wide agenda, no doubt the push for this can be traced to none other than the 'Man of Sin' himself, with his 'UN Human Rights' being forced into every home. The ultimate 'social engineering' goal for their 'Babylonian Utopia'.

Now I think it is time to start talking about 'real' marriage.

The first marriage was performed by God Himself. Adam and Eve were the happy couple.

The state was nowhere to be seen.

During the dark ages, and the great persecution, did the non-conformist church that fled into the wilderness, while they were hiding in their caves, fleeing the Papal armies, suddenly when in need to perform a marriage ceremony, send the happy couple to the Vatican to get the required license and to register their marriage with the 'proper' authority?

So, all non-conformist christians today, because their ancestors didn't do this, must all be descendants of bastards.

What a lie. And we have swallowed it hook, line and sinker.

Now that 'Gay Smearriage' has become law in this country, Christians must boycott the marriage register. It is the only thing to do. We must not give passive acquiescence to the grave sin our nation is committing.

Let's go back to our roots and bring back the marriage ceremony with God as functionary and the state nowhere to be seen.

Or else we shall heap coals upon ourselves for the last days.

Reject this smear on marriage, that instead of being solemnised by God, is sodomised by Gays. www.britishfortress.com

Breaking News: On the 12th December, 2013, a unanimous High Court found that the

ACT law was inconsistent with the federal Marriage Act and therefore is of no effect.
Expect an unrelenting Gay campaign until they get their way.
